**Subject:** Swan Lake (P-2911) and Tyee Lake (P-3015) Hydroelectric Projects - Introductory Meeting  
**Date:** Friday, December 5, 2025 12:25:03 PM

---

Greetings.

Southeast Alaska Power Agency (SEAPA) owns and operates the Swan Lake (P-2911) and Tyee Lake (P-3015), hydroelectric projects located in the vicinity of Ketchikan and Wrangell, respectively. The hydroelectric projects are operated under separate licenses issued by the Federal Energy Regulatory Commission (FERC).

SEAPA is in the process of or about to begin concurrent FERC license processes for these projects. SEAPA is holding a virtual introductory meeting via Microsoft Teams on **December 9 at 10 am to 11 am Alaska time** for agency and tribal stakeholders. The purpose of meeting is to:

1. Introduce the projects;
2. Describe the non-capacity amendments to remove non-primary transmission lines from the FERC project boundaries; and
3. Describe the overall relicensing processes and schedules.

If you are interested in attending the Teams meeting, please click on the link below.
